Medical Care will be given to pets that require medical attention while boarding. We will contact you by your preferred method to discuss treatment. Dr. Ledger will do basic treatment for the pet's welfare at the owner's expense until we are able to reach you. If you consent to whatever treatment is necessary prior to your pet(s) stay then we will proceed with that route.

If major medical needs arise all patients will be transported to Blue Pearl Veterinary Emergency and Critical Care Hospital for treatment at the owner's expense.

Please initial one of the following:

_____ I agree to allow basic treatment for my pet(s) until I can be contacted.

_____ I agree to allow whatever treatment is necessary if I cannot be contacted

All pets must be current on monthly prevention and have a current fecal and heartworm test on file. If they are not current, missing tests and/or prevention will be done at the owner's cost. If any parasites are found on your pet(s) while boarding they will be given a dose of prevention in order to protect our other boarders.

We accommodate and welcome pets with special needs; however, there may be an additional charge for any pet that requires 1-on-1 care. All boarding related concerns must be discussed with PPVC management within 24 hours following check-out. Owner agrees to pay the rate for lodging and additional services requested prior to discharge. PPVC offers medical services for your pet(s) during their stay if they are current on vaccinations. If you elect to bring bedding or any other personal item Pampered Pets will not be liable in the event that the item is misplaced or damaged. Bedding will be provided regardless of if you bring bedding from home.

I agree and verify that all the above information is correct.
